market showed a further effect in the recovery in foreign exchange rates. A hardening of discount rates in London also was a feature of stock market haviness growing principally out of labor troubles in England. The realizing movement usual in a narrow professional market reversed the early advance in the later trading. An element in the reaction was the decision of the interstate commerce commission against the reasonableness of lumber rates to the northwest on traffic originating in southwestern territory.

(Special to The Bulletin.) (Special to The Bulletin.)

Middletown, July 20.—The home team won a game from Williamantic this afternoon, 4 to 3, scoring the winning run after Pitcher Lefty Smith had succeeded Miller, who worked four inings for Williamantic. A bad throw to first by Smith on an easy chance for the out practically presented the final run to Middletown.

The game was full of wrangling caused by the decisions of Umpire Rogers, who pleased neither side. It looked like a fight after the game, but the trouble quieted down.

Old Tennis Stars Beaten in Straight Sets-Princeton Schoolboy Puts Little Out in Singles.

Brookline, Mass., July 20.—A number of surprises marked the matches of the twentieth annual Longwood Cricket club tourney and the eastern doubles championship today. In the latter event, W. A. Larned, national champion in single, and G. L. Wrenn, Jr., went down to defeat in straight sets before the superior playing of Beals C. Wright and Raymond D. Lit-tle. Then as a climax of the day, Little, for years up among the leaders of the same in America, was put out of the singles by Dean Mathey, a Princeton schoolboy, in four sets. M. E. pitching perfection to a relatively small space. They have good eyes and absolutely refuse to hit at a bad ball, their judgment being so good on balls and strikes and their treatment of umpires so fair that the officials often accept their judgment of balls and strikes in preference to their own. You rarely see Huggins or Hartsel kick on called strikes. Often, when called out on a third strike at which they do not hit, they lay down their bats without a word of protest. Hence they income the strikes at the strikes. things, and also compliment them—
the umpires—by agreeing with them
even when the decision is much against them. As a rule a player who lets a third strike sneak over unhit at is vastly ashamed of himself, and

the umpire alona.

So artfully have these little chaps got the umpires "conned" that the fact that they do not hit at a ball often leads the official to accept their judgment of its value as final and superior to his own. Therefore, they get away with more good strikes called balls than any 50 players combined. Opposing players know this will be as close to opposing team shout to the pitcher: "Lay it right over to this fellow. Make him hit!" This is a vast advantage to the batter. He knows that it will be as close to over as the pitcher can get it—right in the fatal groove, rather than not over at all. the umpire alone. groove, rather than not over at all.
Few pitchers try to cut corners or to
fool these demons of the batter's box. Evans is amother extraordinarily good man at the bat. His eye for a ball is as good as any man's, and he has a way of ducking when the ball comes high that makes a good shoul-

der ball look as if it was over hi head. But he offers a foot more pitch ing space than Huggins or Hartsel, bu he is a good waiter and a rare good man to hit a high ball. This brings us really to where Bresnahan's new scheme of ball excels all others. It lies in making his pitchers master and use the knee ball, a ball pitched across the knees just high enough to come within the limits of a strike. Most batters can kill a high ball, Most of them are death to a ball which comes across at the belt or the to get a foul off a ball of this variety.
Hitting a low ball is just as easy as hitting a high one, and in the old days, when the batters took a full swing

any more effective than any other. But since the introduction of the quick-breaking curve, the spitoall and the consequent shortening up of the bar and of the swing, the low ball has come to be the most effective of all. The quick swinger, holding the bat "choked," as Keney holds it, has a hard

to show, although if their twirlers get working right they'll make things warm for anybody. That Boston bunch is going right now. Of all the east-ern teams there isn't one that has anything on them in steam and speed. The team was always fast, but the pitchers are working right now and they are bound to rush. That team will bear watching."

It is many days since Wagner's name has figured as being much of factor in a victory for Pittsburg.

PROVE IT!

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhibitanting, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth

> A lady from St. Paul writes in substance, as follows:
> "When I began using Danderine my hair would not come to my shoulders and now it is away below my hips." Another from Newark, N. J.

"I have been using Danderine regularly. When I first started to use it I had very little hair, now I have the most beautiful long and thick hair anyone would want to have." NOW at all druggists in three sizes 25c, 50c and \$1.00

per bottle Danderine enjoys a greater sale than any other one preparation regardless of kind or brand, and it has a much greater sale than all of the other hair preparations in the world combined.

FREE To show how quickly Banderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERIKE CO., CHICAGO, ILL. with their name and address and in silver or stamps to pay postage.
